

Forces.....darling

She had force of nature
Some say force of hell
God took out an insurance
For when that angel fell

Understandably jumpy,
It's dark on the stairs
Those hate and love brothers
did their night hits in pairs

Now love sits beside him
to set out their case
Dressed up words real pretty
all shotguns in lace

But when they was over
he got held by the seat
Had some place to walk but
a look jumped of his feet

There's just a thought that they'd be there too long
A shadows grow they can't believe the pull
How the night had got so strong

Forces.....darling
I'll never run from you
Forces.....darling
I'll never run from you

Back then things were different
a long time ago
South off hell's borders
saint Peter just wont go

She knew of his dark side
asked was there no light
He said : "Honey, I'm devil
It just wouldn't be right"

There's just a thought that they'd be there too long
A shadows grow they can't believe the pull
How the night had got so strong

Forces.....darling
I'll never run from you
Forces.....darling
I'll never run from you
